2. Do not use internet while solving the problems
3. Do not use books while solving the problems
4. Do the problems on paper/note book first.
5. Do not try to copy from others
6. Do the problems in an easy way.

```
*******************************
#include<stdio.h>
int main ()
{
        int x,y;
        printf ("Enter Number : ");
        scanf("%d",&x);
        // Your Code Here
        printf ("Result = %d",y);
}
****************************************
```

Question: **Get a three-digit number from user and subtract 5 from that number if one's digit number and 100's digit number are same, then print the result. Do not use "*if*".**

Example: **Input: 595 Output 590.   Input: 372 Output: 372**
